CONSIDER CASSELLA CEL

A Subsidiary of IDEAL INDUSTRIES, INC.

DIGITAL LIGHT METER

- High sensitivity
 - measures 20-200,000 Lux
- Displays max, min and average levels
- Data hold on displayed readings
- Large LCD with easy to use controls
- Max hold with overload indication
- Accurate to better than 3% when calibrated to standard lamp

DIGITAL AIR VELOCITY METER

- Large clear display with backlight
- Velocity, volume, temperature, humidity and pressure measurements
- Fast response temperature sensor
- Air flow calculation for in-duct measurements
- Data logging capacity up to 99 runs
- Measures max, min and average values

Insight Software - for all Casella & CEL devices

- Provides managerial level analysis of exposure by cohort group, task, process, department, site, etc.
- Easy to use, flexible graphing features
- Simple common interface: fast set-up and download of all Casella products
- Data compatibility to prior Casella s/w
- Store all downloaded data securely with backup and restore facility
- Export to popular office programs

Casella Tuff™ pump series

- Extremely rugged design; simple set-up
- Available in Basic, Plus or Pro models
- Max flow rates of up to 4500 ml/m plus optional low flow adapter
- Long life battery pack and drop in chargers
 - single or triple port
- Super-fast recharge and field swappable batteries yield maximum uptime
- Remaining run time indication in hours
- Download stored run events to PC for analysis, archiving and final reports
- Available individually, with charger or as complete kits

- STANDARD PUMP
- PLUS PUMP
- PRO PUMP

Casella Microdust Pro™ series

- View real time profile of concentration
- Standard range of measurements from 1 µm/m³ to 2500 mg/m³
- Available in High range (up to 2500g/m³)
- Field Calibration is easy and fast using optical span filter (included)
- Data logging with time history
- Use with a pump and adapter to collect particulate sample for later analysis
- Wide range of sensitivities and particle sizes
- Calibration correction to specific dust types for direct readout correlation

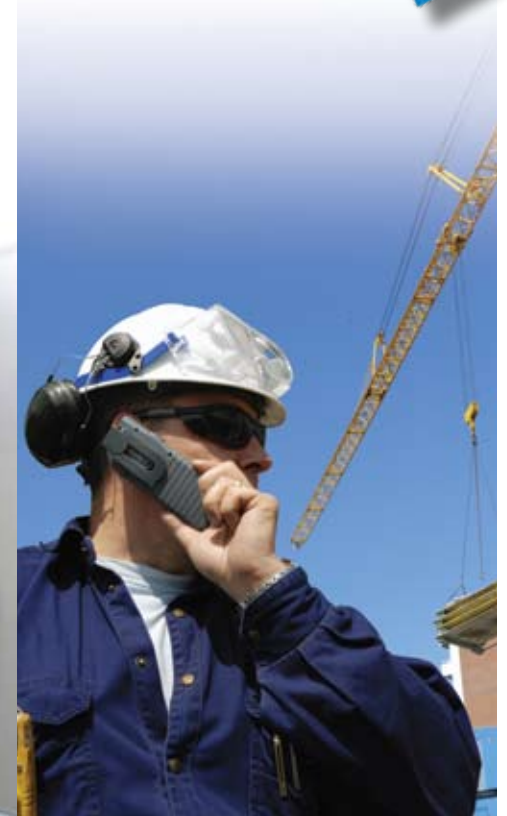

- MICRODUST PRO MONITOR

Casella Air Sampling Accessories

- Filter heads
- Sampling Cassettes
- Calibration devices and adaptors
- Bubblers and impingers
- Tubing, gas bags

- RESPIRABLE FRACTION SAMPLING HEAD

More Great Products from Casella:

CEL-24x series Basic Sound Level Meters
 CEL-35x series Personal Noise Dosimeters
 CEL-6xx series Advanced Sound Level / Octave Band Meters
 CEL-960 Human Vibration Analyzer/Dosimeter (HAV/WBV)
 Environmental Noise Monitoring Systems
